

### DELIVERS MAXIMUM PERFORMANCE FOR 24 HOURS A DAY

Traulsen's Glycol Prep Tables address several inefficiencies experienced in traditional refrigeration systems offered in the marketplace today. Liquid coolant moves through the cabinet 24/7 at, or near, the freezing point of water to prevent frost & ice buildup which can create heat-transfer inefficiencies inside the rail & cabinet.

Through the use of proximity cooling and precise control of temperature, the glycol prep table holds product in the pan rail at consistent, safe temperatures.

### 3 ENHANCE KITCHEN DESIGN

- (2 or 3) row pan rail models
- (2 or 3) level drawer models
- Single or double over shelf

### 4 ENABLE YOUR EMPLOYEES

- Spacious, durable work surface
- Easy clean rails allow quick product transitions

### 1 SAVE LABOR

- Consistent, uniform cooling allows for safe overnight storage in rails
- Maximize rail storage capacity with (2 or 3) row 8" deep pan models
- Sloped rail for trouble-free reach
- Holds at consistent safe temperatures for 24 Hours

### 2 REDUCE COSTS

- Ice free and defrost free for easy cleaning & continuous operation
- No need to stir pans periodically
- No product freezing/drying out

### AVAILABLE MODELS:

#### 2 ROW GLYCOL PAN RAIL

46" length	1 door model
60" length	2 door model
65" length	2 door model
71" length	2 door model
91" length	3 door model
113" length	4 door model

#### 3 ROW GLYCOL PAN RAIL

46" length	1 door model
60" length	2 door model
65" length	2 door model
71" length	2 door model
91" length	3 door model

### STANDARD FEATURES:

For more information on these products visit [www.Traulsen.com](http://www.Traulsen.com) or call 800-333-7447

- Stainless steel exterior & interior finish
- 115/60/1 self-contained system
- Compressor compartment on right
- TXV metering device
- Stainless steel lift-off or hinged night cover
- White poly cutting board
- 20" stainless steel door(s)
- Self-closing door with stay-open feature
- Metal door handle with gasket guard
- (2) shelves per door, on pilasters
- Zero-clearance installation
- Factory-supplied filter for condenser coil
- 6" casters
- 9' cord & plug attached
- Engineered & hand-assembled in Fort Worth, TX

### OPTIONAL ACCESSORIES:

- Stainless steel single or double over shelf
- Stainless steel finished back
- (2 or 3) level drawers in lieu of doors
- 4" casters or 6" legs
- Cutting board extensions (3 row models only)
- Tray slides
- Hinged night cover
- Full-length removable composite cutting board

### HIGHLIGHTS:

#### ICE FREE

Glycol rail design sheds ice every 4<sup>th</sup> cycle

#### FAN FREE

Eliminates potential breakdown & service cost

#### DEFROST FREE

Glycol system flows 24/7/365 no shutdown

#### EXCEEDS NSF7 REQUIREMENTS

Maintains food at safe temperatures using specified 8" deep pans
